adjacent said at least a portion of said object by moving said photosensor array within said frame;

wherein said scanning causes an image of said object to be generated;
displaying at least a portion of said image of said object on said
display; and
uploading said image to the internet.

Claims 35-37 (canceled)

38. (currently amended) The method of ~~claim 37~~ claim 34 wherein said displaying at least a portion of said image occurs when said scanning is taking place.

39. (previously presented) The device of claim 1 and further wherein: an image is displayed on said display when said lid is in said closed position.

40. (canceled)

41. (canceled)

42. (currently amended) The device of ~~claim 40~~ claim 1 wherein one of said options is for uploading or downloading an image via wireless communication.

43. (previously presented) The device of claim 1 and further comprising:
a removable memory card device.

44. (previously presented) The system of claim 29 and further wherein:

S/N 09/748,345
Art Unit 2827
Atty Dkt 10002593-1

an image is visibly displayed on said display when said lid is in said closed position.

45. (canceled)

46. (canceled)

47. (currently amended) The system of ~~claim 45~~ claim 29 wherein one of said options is for uploading or downloading an image via wireless communication.

48. (previously presented) The system of claim 29 and further comprising:
a removable memory card device.

49. (currently amended) The method of ~~claim 37~~ claim 34 and further wherein:
said image is visible when said lid is in said closed position.

50. (previously presented) The method of claim 34 and further comprising:
displaying a menu of options on said display.

51. (canceled)

52. (previously presented) The method of claim 34 and further comprising:
uploading an image from said device or downloading an image to said device via wireless communication.
